PROJECTS

MakeMyTrip Clone - MERN Stack Travel Booking Portal

- A full-stack travel booking web app inspired by MakeMyTrip, built using MongoDB, Express.js, React, and Node.js, allowing users to search and book flights and hotels, and includes a secure admin dashboard for managing listings.

Tech Stack

- **Frontend:** React, React Router, Bootstrap
- **Backend:** Node.js, Express.js
- **Database:** MongoDB Atlas
- **Auth:** JWT (JSON Web Tokens)
- **Deployment:** Render and Netlify
- **GitHub:** <https://github.com/yb792/make-my-trip-clone.git>

User Registration Form

- Desktop GUI Java Swing application
- Stores the personal details of the user
- Built in Apache Netbeans IDE
- Connected to MySQL database
- Abstract Window Toolkit (AWT) Java library is implemented
- Code is written in Core Java
- **GitHub:** <https://github.com/yb792/Project.git>

ACHIEVEMENTS

- Bronze medal for major project in Electronics and Communication Engineering department of college
- 3rd position in Smart India Hackathon 2022 at College Level competition.
